"I really liked the book. As a person with some woodworking experience, I found the book easy to follow and well organized. The skills are presented in a format that is easily followed regardless of past woodworking experience or prior subject matter knowledge."Rick Beardsley, The Old Schoolhouse Magazine, LLC."Right from the start I was impressed with how user-friendly Woodshop 101 is for experienced and novice woodworkers. What impressed me the most is the volume of pictures and illustrations. I also love the fact that, unlike most books that teach woodworking, Woodshop 101 for Kids is based solely on using hand tools!" ---Cindy Prechtel"I really enjoy (Woodshop 101 for Kids). I would have struggled to teach my son woodworking because of my lack of experience. But with the help of your book we're having a great time learning together. My son has developed a real interest in woodworking and Woodshop 101 for Kids has been a big part of that."---Sam Bruner

What people say about this book

Ebook Library Reader, "Cute- but more for boys. This was really cute & easy to follow! I ordered it for my 10 year old sister-in-law & I think it'll be perfect for her. My only drawback is it seems to be more geared for boys than girls. I'll write a list below of what characters are included so you can get an idea of what I mean. • mermaid • Pegasus • diplodocus (dinosaur) • astronaut • spaceship • alien • troll • t-Rex (dinosaur again) • extraterrestrial (another alien) • super heroine • stegosaurus (dinosaur again) • Viking • dragon • robot (as seen on the cover of the book) • dinosaur egg"

PETTY HOUSE, "Awesome templates for ages 9 and up. Awesome book it is a little difficult for younger kids but ages 9 and up do great and it has awesome ideas"

Pamela Robb, "Grandsons loved it!. My 10 yr old grandsons loved it."

Lori Schang, "Love this. Great pics"

Sarah Nepstad, "Four Stars. My daughter loves this book. She has learned so much from it."

tyra gulley, "Great for beginners. My artsy nephew has loved this book of characters. He's a newbie to the world of clay, and he's already loving it. I see pounds of clay in our future. Lol"

Emily, "Great for kids. This is a great book for kids 6-8 who like to create with clay. My daughter loves it and so do her friends. We give it as a birthday gift along with some modeling clay and that has been a big hit! Plus it's really nice to give a gift that inspires creativity instead of giving plastic."

Judi, "Realy good. Realy easy to follow instructions, daughter loves this book"

Kerry, "Good service. Daughter loved it"

Laurie, "As expected.. As expected."

Geoff (Del Boy), "good ideas for older kids. Fun book for little modellers - probably not younger than 7"

Peter, "great. great stuff"
