## What people say about this book

Erica Webel, "Fun activity!. This activity is a lot of fun, and leaves your little one (my daughter is seven) with a neat playset after you've completed the building. However, to give fair warning, it's not something the kids can probably do completely on their own, unless they're older than mine. The cutting is complex, and the glueing has to be just right or it doesn't turn out right. With help, though, it's certainly a project for dino-loving kids that I would recommend."

Linda Wilson, "Still in one piece.. I did this with my grandsons, who are crazy about dinosaurs. They loved it. They usually fight over stuff and it winds up torn apart. Well, they liked this so much that it's still in one piece."

amandacook4, "Cool Little Kit. Fun afternoon project. Really makes dinosaurs come to life. My kids aged 6 and 9 were really into it. The 4 year old, not-so-much."

Randall Knol, "Card board dinosaur diorama. Better than the old shoe box diorama format. Good quality art. Can be assembled without extra tools or an art degree. The back drop mixes animals fro different periods."

Steven A Bryan, "Five Stars. Happy with order!"

Ebook Library Reader, "Westy. my Grandson really loved this book, he cannot wait to spend time cutting out and making to the items."

Elisabeth, "Bastelspaß pur. Wir haben dieses Bastelbuch bereits das zweite Mal bestellt und nach 5 Jahren hat mein Sohn es genauso so gerne ausgeschnitten und zusammen geklebt wie damals.Das einzige Übel ist, dass die Dinobeine relativ instabil sind, man muss sie mit Zahnstochern verstärken.Grundsätzlich kann ich das Buch jedem empfehlen der gerne mit seinen Kindern bastelt"

Stefan Herwig, "Make these Dinosaurs / Usborne Cut Out Models. Ist ein Geschenk gewesen, und kam auch sehr gut an, mehr von solchen Sachen wären toll, auch mal von deutschen Verlagen.Mehr ist auch nicht aufzulisten."

kath a wright, "Five Stars. bought for grankids built by grandad"
